

according to Regulation (EC) No. 1907/2006

Indian Red -123

Version	Revision Date:	SDS Number:	Date of last issue: 14.08.2018
1.2	16.08.2018	103000009103	Country / Language: GB / EN(GB)

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	:	Indian Red -123
Product code	:	123
REACH Registration Number	:	01-2119457614-35-0000

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-	:	Colorants (pigments and dyestuffs), inorganic
stance/Mixture		

1.3 Details of the supplier of the safety data sheet

Supplier	:	Michael Harding Art Formulas Ltd Unit K Springvale Ind Est Cwmbran Torfaen, NP44 4BE
Telephone		+44(0)1633484700
E-mail address of person responsible for the SDS	:	accounts@michaelharding.co.uk

1.4 Emergency telephone number

0870 190 6777. National Chemical Emergency Centre

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.

Indian Red -123

Version	Revision Date:	SDS Number:	Date of last issue: 14.08.2018
1.2	16.08.2018	10300009103	Country / Language: GB / EN(GB)

SECTION 3: Composition/information on ingredients

3.1 Substances

Chemical nature : Fe2O3

Hazardous components

Remarks : No hazardous ingredients

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	Do not leave the victim unattended.
If inhaled :	Move the victim to fresh air. Get medical attention if symptoms occur. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained per- sonnel. If unconscious, place in recovery position and get medical attention immediately. Loosen tight clothing such as a collar, tie, belt or waistband.
In case of skin contact :	No special measures required.
In case of eye contact :	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. If easy to do, remove contact lens, if worn. Continue to rinse for at least 10 minutes. Get medical attention if symptoms appear.
If swallowed :	No special measures required.
4.2 Most important symptoms and	effects, both acute and delayed
Symptoms :	See Section 11 for more detailed information on health effects and symptoms.
Risks :	See Section 11 for more detailed information on health effects and symptoms.
4.3 Indication of any immediate me	dical attention and special treatment needed
Treatment :	See Section 11 for more detailed information on health effects and symptoms.

Vers 1.2	sion	Revision Date: 16.08.2018		DS Number: 3000009103	Date of last issue: 14.08.2018 Country / Language: GB / EN(GB)
SEC	CTION	5: Firefighting meas	sur	es	
5.1 I	Extingu	ishing media			
	Suitabl	e extinguishing media	:	In case of fire, use CO ₂ .	e water spray (fog), foam, dry chemical or
	Unsuita media	able extinguishing	:	None known.	
5.2 \$	Special	hazards arising from	the	e substance or mi	xture
	•	c hazards during fire-			
	Hazard ucts	lous combustion prod-	:	The product itself	does not burn.
	A .I!	for a first first to see			
5.37	Advice	for firefighters			
	Specia for firef	l protective equipment ighters	:	and self-containe	ld wear appropriate protective equipment d breathing apparatus (SCBA) with a full ed in positive pressure mode.
	Further	information	:	Use extinguishing	re for chemical fires. I measures that are appropriate to local cir- the surrounding environment.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Avoid breathing dust. Use personal protective equipment. Avoid dust formation.
6.2 Environmental precautions Environmental precautions	:	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	: Pick up and arrange disposal without creating dust.
	Sweep up and shovel.
	Keep in suitable, closed containers for disposal.

according to Regulation (EC) No. 1907/2006

Version	Revision Date:	SDS Number:	Date of last issue: 14.08.2018
1.2	16.08.2018	103000009103	Country / Language: GB / EN(GB)

6.4 Reference to other sections

For personal protection see section 8. For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1	Precautions for safe handling	I	
	Advice on safe handling	:	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the ap- plication area.
	Advice on protection against fire and explosion	:	Provide appropriate exhaust ventilation at places where dust is formed.
	Hygiene measures	:	When using do not eat, drink or smoke. Wash face, hands and any exposed skin thoroughly after handling. Wash contami- nated clothing before reusing.
			General industrial hygiene practice.
7.2	Conditions for safe storage, in	ncl	uding any incompatibilities
	Requirements for storage areas and containers	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep containers tightly closed in a dry, cool and well-ventilated place.
			Electrical installations / working materials must comply with the technological safety standards.
	Advice on common storage	:	No materials to be especially mentioned.
	Further information on stor- age stability	:	No decomposition if stored and applied as directed.
7.3	Specific end use(s)		
	Specific use(s)	:	No data available

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
diiron trioxide	1309-37-1	TWA (inhalable dust)	10 mg/m3	GB EH40

according to Regulation (EC) No. 1907/2006

Indian Red -123

Version Revision 1.2 16.08.20		
Further information	fractions of airborne dust which will be collected when sampling is in accordance with the methods described in MDHS14/3 General a sampling and gravimetric analysis of respirable and inhalable dust COSHH definition of a substance hazardous to health includes du- kind when present at a concentration in air equal to or greater than 8-hour TWA of inhalable dust or 4 mg.m-3 8-hour TWA of respirate This means that any dust will be subject to COSHH if people are e above these levels. Some dusts have been assigned specific WEL posure to these must comply with the appropriate limit., Most indu- contain particles of a wide range of sizes. The behaviour, deposite of any particular particle after entry into the human respiratory sys- body response that it elicits, depend on the nature and size of the HSE distinguishes two size fractions for limit-setting purposes term ble' and 'respirable'., Inhalable dust approximates to the fraction of material that enters the nose and mouth during breathing and is th available for deposition in the respiratory tract. Respirable dust ap to the fraction that penetrates to the gas exchange region of the lu- definitions and explanatory material are given in MDHS14/3., Whe contain components that have their own assigned WEL, all the rele- should be complied with., Where no specific short-term exposure	undertaken methods for t, The st of any n 10 mg.m-3 ole dust. exposed Ls and ex- strial dusts on and fate tem and the particle. ned 'inhala- f airborne nerefore proximates ing. 10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Not classified based on available information.

:

Product:

Acute oral toxicity

LD50 (Rat): > 5.000 mg/kg Remarks: Test results on an analogous product

Skin corrosion/irritation

Not classified based on available information.

Product:

Result: No skin irritation Remarks: Test results on an analogous product

Serious eye damage/eye irritation

Not classified based on available information.

Product:

Result: No eye irritation Remarks: Test results on an analogous product

Respiratory or skin sensitisation

Skin sensitisation

Not classified based on available information.

Respiratory sensitisation

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

STOT - single exposure

Not classified based on available information.

STOT - repeated exposure

Not classified based on available information.

Further information

The data given here is based on current knowledge and experience. The purpose of this Safety Data Sheet and its Annex [if required according to Regulation (EC) 1907/2006 (REACh)] is to describe the products in terms of their safety requirements. The given details do not imply any guarantee concerning the composition, properties or performance.
